The goal of this self-assessment is to give you an idea on how well you are doing in this class, as well as to help you take control of your learning and success in the course.

The more honest you are, the more you will benefit from the self-assessment!

While taking the self-assessment my suggestion is for you to check the course site and the work you have done for this class to ensure that you are answering the questions correctly. This will give you an idea of what you have done and what you are missing, and most important, how you can improve and excel.

If you get a low grade, know that the earlier you change your work habits and improve your efforts the more chances you will have to improve your learning and grade.

Getting a good grade means that you are doing everything this class requires but you need to keep up the good work throughout the semester in order to keep your grade.

If you do any work after taking the self-assessment, take it again to adjust your grade. You will see how empowering it is to be able to control your success!!!
